

La frode farmaceutica

PISTOLA FUMANTE #1: eccesso di morti "millennials" (cioe' 20-40enni) nel 2021

Josh Stirling, il piu' quotato analista di fondi assicurativi, ha elaborato i dati del CDC americano scoprendo che tra marzo 2021 e febbraio 2022 sono morti 61mila millennials in piu' rispetto ai cinque anni precedenti. Nella guerra in Vietnam ci furono meno morti. Con i "vaccini" covid e i richiami sono aumentati i morti nella fascia di eta' 25-44 anni. I negazionisti hanno detto che l'eccesso di morti tra i giovani e' stato causato da overdosi di droga, suicidi, e mancate cure mediche, ma statisticamente e' impossibile che in soli tre mesi tutte queste presunte cause di morte siano aumentate simultaneamente in tutti gli Stati Uniti.

PISTOLA FUMANTE #2: cambiamenti misti

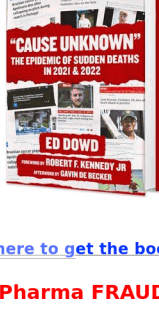

L'analista Josh Stirling ha anche scoperto che mentre nel 2020 l'eccesso dei morti ha colpito chi aveva meno di 65 anni solo nel 21% dei casi (126mila morti in eccesso su 592mila), nel 2021 l'eccesso di morti sotto i 65 anni e' salito al 35% (181mila su 512mila), e i morti in eccesso tra i millennials hanno superato i morti di ogni altra fascia di eta'. Nel 2020 i millennials morti in eccesso sono stati 42mila, ma nel 2021, quando i ceppi del coronavirus sono diventati meno pericolosi, i millennials morti in eccesso sono aumentati fino a 61mila. E' dato che e' stato chiarito che il virus colpisce essenzialmente gli anziani con patologie pre-esistenti, il covid19 non puo' spiegare il fatto che nel 2021 siano morti in eccesso 61mila millennials in piu' rispetto alla media degli anni 2015-2019. Nel 2021 il virus era piu' debole, eppure sono morti piu' tanti giovani. Cos'altro e' successo nel periodo in cui hanno iniziato a morire molti piu' giovani di prima? "Vaccini" e "obblighi vaccinali". Di sicuro non e' pensabile che il virus nel 2021 abbia deciso di colpire i giovani e di trasformarsi da virus respiratorio a virus polmonare. Eppure i media e le autorita' si rifiutano di parlare di questi fatti, e negano tutto, forse perche', se ne parlassero, ci sarebbero domande scomode sui "vaccini".

PISTOLA FUMANTE #3: la conferma dell'istituto SOA (Societa' di Ricerca Statistica)

La SOA (Society of Actuaries Research Institute) ha pubblicato il 17 agosto il suo rapporto di mortalita' covid. Questo rapporto include circa l'80% di tutti i contribuenti USA. I dati indicano che nel terzo quadrimestre 2021 e' successo qualcosa che ha portato a un eccesso di mortalita' del 78% per la fascia di eta' di 25-34 anni, e del 100% per la fascia di eta' di 35-44 anni. E' evidente che l'evento causale di questo aumento dell'eccesso di morti giovani e' stata l'introduzione degli obblighi "vaccinali" da parte dell'amministrazione Biden. Ed e' cio' che noi chiamiamo "democidio", ovvero morte causata da atti governativi.

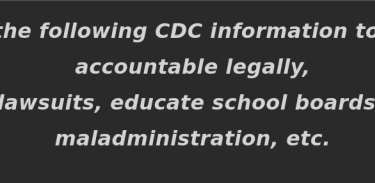

ESORTAZIONE FINALE DI EDWARD DOWD

Nessuno verra' a salvarci. E' tempo di alzarsi in piedi e salvare noi stessi. Gli enti regolatori, le agenzie governative, e il complesso tecnologico dei mass-media ha ricevuto molti soldi dalle case farmaceutiche e dai politici per sopprimere le informazioni scomode e per promuovere la narrativa ovviamente fraudolenta del "sicuro ed efficace". Quando un numero sufficiente di persone sara' consapevole di tutto questo, allora il "sentiment" si ribaltera', e raggiungeremo un punto di svolta sociale. E' finito il tempo di stare seduti ad aspettare.. e' il momento di scendere in campo qui ed ora, perche' altrimenti le nostre liberta' verranno azzerate, e saremo schiavi.

This is the story of **Big Pharma FRAUD** in 2020, 2021 and now.

You can use the following CDC information to hold officials accountable legally, launch lawsuits, educate school boards, sue for maladministration, etc.

From the desk of Ed Dowd;

Smoking Gun #1 Millennial Excess Deaths in 2021

On March 7th my partner **Josh Stirling**, former #1 ranked sell side insurance analyst, created the now infamous **millennial excess death chart** (full PDF below)

Sourced from CDC data which showed an 84% spike of excess mortality into the Q3 vaccine mandates by the Biden administration and the lockstep follow on by schools, colleges and corporations.

Between March of 2021 and february of 2022, **61,000** millennials died excessively above the prior 5 year base trend line.

More millennials died in 2021 than American soldiers were killed in the Vietnam War.

The relative timespan and rate of change into the fall of 2021 is a signal that a harmful event occurred to this 25-44 age group.

This means that millennials started dying in large numbers at the same times when vaccines and boosters were rolled out.

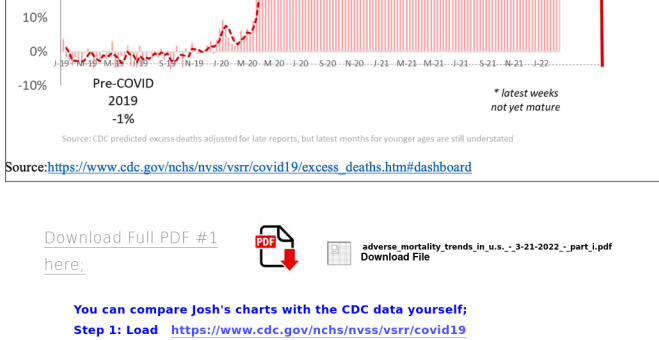

The vaccine clearly had a role, as many previously hesitant folks were forced into compliance.

The naysayers claim the excess deaths were due to drug overdoses, suicides and missed medical treatment...

We have fact-checked the fact-checkers.

It's statistically impossible that in a three month period, all those events up-ticked simultaneously across the country.

Exhibit 5 from PDF #1 (below) shows how excessive amounts of millennials died at the same times that lockdowns, vaccinations, mandates and boosters were rolled out.

You can compare Josh's charts with the CDC data yourself;
Step 1: Load https://www.cdc.gov/nchs/nvss/vsrr/covid19/excess_deaths.htm#dashboard
Step 2: Scroll down on the CDC page until you see this interactive chart:

On the CDC website, hover your mouse over the red + symbols on the chart to verify that the CDC dates match Josh's chart shown above.

Smoking Gun #2 Mix Shift

On March 14th, Josh Stirling made his second most important discovery in the CDC data.
(See Josh's correlating chart below)

It was the mix shift from old to young that occurred from 2020 to 2021.

126,000 of the 592,000 excess deaths in 2020 were people under the age of 65 or approximately 21%.

181,000 of the 512,000 excess deaths in 2021 were people under the age of 65 or approximately 35%.

More millennials died in excess than any other age group in 2021.

The number of excess millennial deaths in 2020 was 42,000, but jumped a whopping 45% to 61,000 in 2021.

In 2021, Covid strains were already mutating and becoming less virulent.

Also, it had already determined that the virus affected mostly older people with co-morbidities.

This indicates that the **mix shift of excess deaths in 2021 was not likely due to COVID19 but rather some other external source.**

SIXTY ONE THOUSAND more millennials died in 2021 than the average baseline from 2015 to 2019.

The virus was weaker in 2021, but yet more millennials died.

What else happened in 2021 at the same times with millennial excess deaths spiked? Jabs and mandates.

It's important to note that 45,000 more people died under the age of 65 in 2021 versus year 2020.

Did the virus suddenly decide to only target younger folks disproportionately?

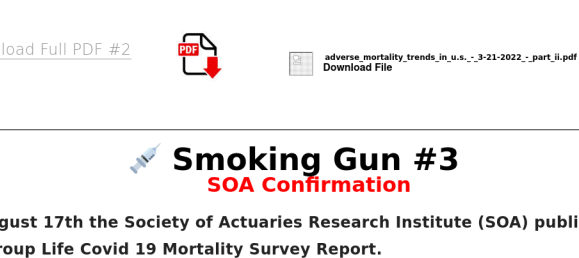

Did the virus change from respiratory to pulmonary in year 2?

The only thing that changed in 2021 was the introduction of the vaccine and mandates, which to simple deductive reasoning is the obvious culprit.

However, **the authorities and the mainstream media simply refuse to acknowledge much less comment on this data.**

The reason it is not allowed is because the obvious question would begin to be asked about the vaccines.

Exhibit 1 from PDF #2 (below) shows more young people died in 2021, after vaccines and boosters rolled out.

Smoking Gun #3 SOA Confirmation

On August 17th the Society of Actuaries Research Institute (SOA) published their Group Life Covid 19 Mortality Survey Report.

This report represents approximately 80 percent of the group life US residents.

Table 5.7 in the report is Excess Mortality by Detailed Age Band and as you can see below **there was an event that occurred in Q3 of 2021 (highlighted in red) for the two age groups 25-34 and 35-44 which represented excess mortality of 78% and 100% respectively.**

In March, we reported 84% excess mortality into the fall of 2021.

Bottom line... **Our analysis has been verified by SOA and their group life claims into the third quarter as well.**

It is clear that a causative event which occurred in Q3 of 2021. We are 100% of the belief it was the vaccine mandates ordered by the Biden administration.

This is what we call "democide", or death by government action.

Table 5.7 PDF #3 (below) shows how excessive amounts of millennials died at the same times that lockdowns, vaccinations, mandates and boosters were rolled out.

Age	Q2 2020	Q3 2020	Q4 2020	Q1 2021	Q2 2021	Q3 2021	Q4 2021	Q1 2022	4/20-3/22	% COVID	% Non-COVID	% Count

Call to ACTION: JOIN THE FIGHT

No one is coming to save us except "We the People".

It's time we standup and save ourselves.

Regulators and gov't agencies and media-tech complex received money from big-pharma and governments to suppress negative information whilst promoting the obviously fraudulent tag line "Safe and Effective."

...This is a battle for the marginal mind and when we alert enough people the sentiment will shift and we reach a societal tipping point.

Please use this information here in your local action with schools boards, your company's vaccine mandate and lawsuits.

The time for sitting on the bench is over and time to get on the field is here and now.

If we let this stand our freedoms are over and you are a slave.

Activate yourself and those around you!

Share this site, the information and the PDFs so that others can use them in their battles to take back our media, our court systems, our education system and our freedom!

Get involved in any way you can!
