ordered bar snacks on game day with the subtle power of comfortable cracked leather, the ideal backdrop to a freshly opened beer. Just like in real life, the scent of peanuts and jalapeno delightfully overpower the cloud of "excitement" from a fan "literally" sweating out the win at the next table. Allow Game Day Bar to take you back to the packed, sticky-floored bar of your alma mater or the best spot to watch your city's team win (or lose, we're there either way).

## Suez Canal trapped cargo ship is costing the world economy about \$400 million an hour

The financial costs of the Suez Canal being shut off are mounting and it could take weeks to unstick it.

# The Container Ship In The Room

Sean Morgan, Updated: 5 days ago (i.e. 26 March 2021)

The "elephant in the room" is a phrase that describes when something is obvious but not talked about in the open. Well, right now we have an international news story that is screamingly obvious to anyone who has been studying the Q intel drops. To say nothing about this unraveling news story would be journalistic negligence.

I'm speaking of one of the world's largest container ships, the "Ever Given" manufactured by Evergreen Marine Corp, blocking the Suez Canal (perhaps the world's most vital shipping lane). The ship was going from China to the Netherlands. The price of oil spiked after the shipwreck as many container ships now have to go the whole

Understand what's happening in the Suez, this clearly isn't some random accident.

As of March 20, Russia deployed a significant portion of its Navy to the Mediterranean Sea

The 5th Fleet of the US Navy has been conducting several operations over the last week on the Arabian Sea, Red Sea, Suez Canal, and the Gulf of Oman.

Russian Navy on one side.  
US Navy on the other.

H3RC Evergreen runs ashore and blocks the entire canal, forcing traffic to stop flowing.

Hundreds of cargo ships are now trapped with no escape route. Time for inspections?

Combine this with all the other comms.

Smells like a pretty significant development if you ask me, no wonder the MSM is doing everything they can to distract us.

Watch the Water.

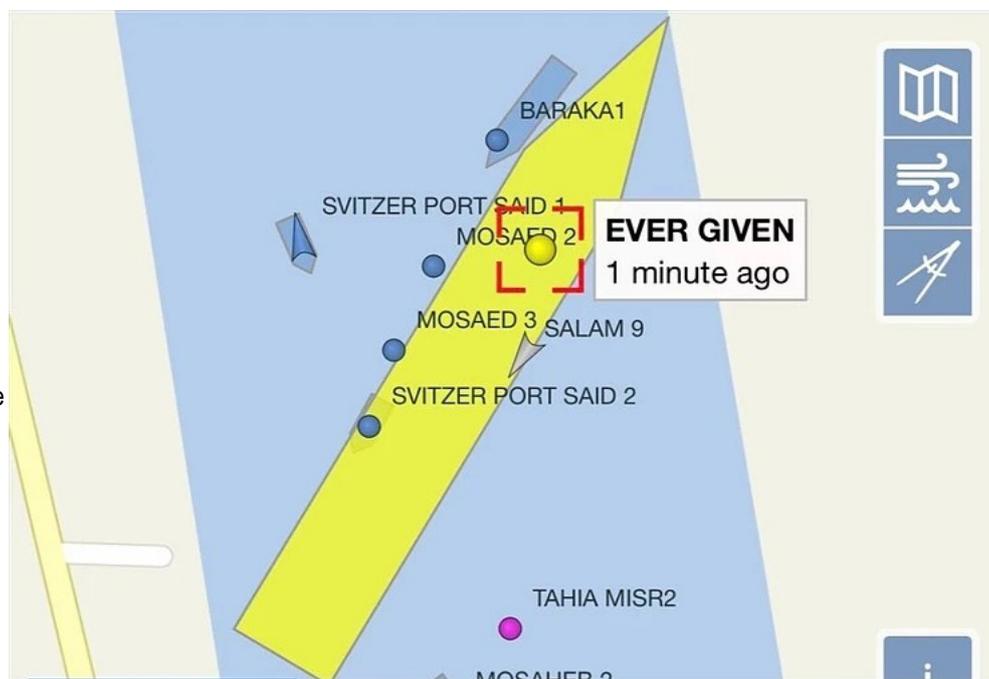

way around the southern tip of Africa as an alternate route. The efforts to free the ship may take weeks. The "official" story is that a wind storm caused the ship to lose control and get beached. However this kind of thing has never happened before and many have said that it would take hurricane force winds to affect a ship of that size. The route that the ship took during the "wind storm" just so happens to draw a perfect picture of male genitalia. Is this just a random shipwreck that's no big deal? Well, the military activity surrounding it would make me think differently. The Russian Navy is positioned on one side of the canal and the US Navy is positioned on the other side. Other ships are now trapped and being detained. For those of you familiar with theories related to the Evergreen shipping company, you're probably already connecting the dots. What if this whole situation is a sting for human trafficking? How would a wind blown ship that is one of the biggest in the world draw a picture that clearly? A plausible theory being put out there is that the navigation system could have been hacked by whitehats. The call sign for the vessel is H3RC, which some have pointed out is not a far cry from the initials for Hilary Rodham Clinton, who has been at the center of human trafficking accusations. Evergreen, the word that is painted in bold letters across the ship and is sinking into the consciousness of millions of people watching this story...also happens to be the secret service code name for none other than Hilary Clinton. The call signs for the tug boats trying to free the vessel are Baraka and Mosaed. Have all of these names been chosen as comms for the world to understand a deeper narrative? And what could that expertly drawn picture of male genitalia be trying to communicate?

Is it just a matter of time before the cargo aboard these trapped vessels are inspected and made public? I don't know what could be aboard...could be drugs, humans, black market precious metals, or perhaps the operation will remain clandestine and we will never know. But I am watching out for any military or false flag activity in the region and around the world that might distract from this situation because my gut tells me the deep state does not want us to know whats on those ships.

The calm before the storm?

What happens when a **BLOCKADE** (threat) is dismantled & removed?

"You'll find out."

Children used as shields (manufactured crimes of perjury)?

FIRE AT WILL, COMMANDER.

This is a message of the Emergency Broadcast System. We have taken control of your vessel. Resistance is futile. You will now be driven to the seaport to deliver over the children and other contraband, and your persons. We have a full accounting of the children held hostage. If any are harmed, you will be held personally responsible.

Re: Evergreen shipping containers.

**"EVERGREEN" is Hillary's Secret Service code name.... it's also the name of a shipping company that transports children, drugged and boxed up in containers marked, "Live Art"— for delivery to Elite Pedophiles and Pedovours (a pedovour is someone who eats babies) for possible organ harvesting, rape, torture and sacrifice!**

Dan just posted this.

The President and First Lady are dancing!

On the Presidential Seal!

Their inaugural dance.

And they are standing on the olive branch that symbolizes peace.

Did something happen today that we don't know about?

I'm going to throw this out there... maybe because I hope this is true... but it sure looks like President Trump is sending us comms that the child trafficking has been stopped.

The criminals had a choice... have every container opened and children brought out for everyone to see... or hand over every child to the authorities.
